SERVICES

SAUNA STEAM REPAIR & SERVICES:

After the hustle of daily lives, we all need a place to relax into like our own fortress of solitude and Sauna is a perfect place for that. It makes us sink into the serenity both literally and figuratively. However, to fully experience this relaxation we need a perfectly working, fully functional Sauna and we are here to protect your fortress of solitude!

An Ideal Sauna is highly sanitary because of the high heat temperatures. This in turn leads to moisture being left behind in the Sauna which may lead to bacteria and mold, and this is clearly not ideal for your relaxing environment. These microbes might also be a threat to your health, and it works against your well being while in the Sauna.

We at Fortune Tech are here to ensure that your Sauna environment is properly maintained by keeping it fully sanitized and keeping these microbes away.

We apply solutions to keep these microbes and fungi at bay and perform further tinkering by tightening all the loose ends. We do a thorough routine check of the system to ensure you get your full sauna experience.
